Topic: Exploring Yellowstone

Description: This presentation will cover the main areas of Yellowstone. What to see in each area and a few outside the park but nearby sites. The talk will cover geysers, hot springs, wildlife, and waterfalls, activities – hiking, kayaking, rafting, and places to stay. Photography will be included in the presentation of key areas including some photographs that have been submitted for various competitions and images of wildlife encounters. This presentation will cover only the summer season based on 2 of my most recent trips. Hopefully, this will inspire some to travel to see my favorite National Park.
